

Real students, Real stories.

HI, I'M YOONSEON
FROM KOREA!

한국 학생 설문 조사

Where did you choose to study and what course did you follow?

I choose to study at LSI Brighton for 8 months. I was studying in the Intensive 24 class with Fluency and Business English.

What was your level when you started? What is your level now?

I started with an A2 level and I am currently at a B2 after 7 months.

Why did you choose to study at LSI?

I choose Brighton to live while I was looking for cheaper cities compare to London for studying English courses in UK. Among many other language schools in the city, I selected LSI with many reasons such as the curriculum, social activities and the reasonable tuition fees. Also, low percentage of Korean students was one of the important matters for me.

한국 학생 설문 조사

What do you think of the school facilities?

There is onsite residence, sometimes I prepared lunch by using communal kitchen facility. Also, there is large terrace area for spending free time with friends. Nevertheless, the study rooms' facility was great and all study materials and books.

How's the atmosphere in class/at the school?

The after school social activities are running well, it seems bring the new students into groups easily. Also, there are basic classroom rules in order to study without interruption, Teachers also help students to feel more comfortable.

What are your thoughts on the school location?

LSI Brighton center moved to residential area in June. There are cafes, restaurants and small Asian marts around school so have easy options for lunch. Also, less than 10minutes walk to the beach. You can take a bus to Brighton city centre (up to 15minutes) from a bus stop in front of the school.

Interview from our Korea Students

How did you find studying with LSI? Evaluation for classes?

I never liked study English when I grow up in my home country. However, I learned to talk and live with other similar level students at LSI, I enjoyed it and learned fast! Also, I could study in various ways as the study materials and teachers changed every 10weeks.

What do you think of LSI's teachers and school staff?

Il didn't have chances to get close with LSI staffs, though, they seemed friendly and helpful. Also, teachers teach in different styles, each student would have different preferences, but I found most of my classes were fun and informative.

How do you feel about living in the city?

I don't regret on my choice of city! Summer was crazy busy though it was be best time to appeal the charms of Brighton. The beach, perfect weather, Seven Sisters Cliff, the Pride and much more to see and enjoy the city. There will be other events in autumn and winter season such as Christmas, Easter Monday and Halloween day etc..

Do you have any tips to share?

Brighton is great city, able to overlook the sea everyday life and lots of British pubs and the accent! Close to the Gatwick airport so makes trip easy to the European union countries. Studying English seems depends on how hard you try, in my case, I avoid hanging with Korean friends, instead, I spent a lot of time with friends from other countries. In UK, LSI have schools in other cities include London, Brighton and Cambridge, it might be good option to study in each centre and explore all the cities while studying with LSI.
